## COVID-19 DASHBOARD OVERVIEW

This dashboard provides a comprehensive analysis of COVID-19 data, featuring key metrics, interactive maps, and trend visualizations.

### Key Features:

- **Metrics Cards:** Displays total confirmed cases, deaths, active cases, and recoveries.
- **Filters:** Slicers for WHO regions and countries/region enable tailored analysis.
- **Multi-row Card:** Highlights the Top 5 countries by highest new cases.
- **Map Visualization:** Shows confirmed cases by country/region with tooltips for active cases and deaths.
- **Stacked Column Chart:** Compares confirmed cases, deaths, active cases, and recoveries by country/region.
- **Area Chart:** Tracks trends of confirmed cases, deaths, and recoveries over time.
- **Data Table:** Lists detailed values by country with death rates highlighted in red.
- **Donut Chart:** Shows testing efforts by WHO region.
- **Funnel Chart:** Visualizes the case Progression - from active to recovered or unfortunately, deaths.

Use this dashboard to explore COVID-19 trends, compare regional impacts, and gain insights into the pandemic's progression.
